## \$12,000,000 Grape Crop Is Menaced By Prohibition

California Growers Warn  
of Disaster to 50,000  
Workers Unless Relief Is  
Provided Immediately

H. F. Stoll, president of the California Association of Grape Growers, says in a telegram, made public yesterday by the Association Opposed to National Prohibitions, that a crop of 400,000 tons of wine grapes, valued normally at \$12,000,000, is about ready for harvest, and unless some relief is afforded meanwhile at least 50,000 persons dependent on the industry will encounter disaster.

"And by disaster he means nothing short of actual ruin," said John Taft, of San Francisco, a member of the Association Opposed to National Prohibitions, who received the message here. Mr. Stoll's message read: "Within fifteen days 400,000 tons of wine grapes, valued at \$12,000,000, will be ready to be harvested. Unless relief comes quickly and our 700 winemakers can crush this immense crop for wine purposes, 50,000 men, women and children directly interested in the wine industry of California will be seriously affected."

170,000 Acres in Grapes  
"One hundred and seventy thousand acres are devoted to wine grape vineyards, and our 8,000 wine grape growers have spent millions in cash outlay by savings and by borrowed money in this one season alone to bring the vineyards up to the picking stage."

"Government agents in California will verify the assertion that in every grape growing community of this state the vineyardists have been found to be among the most active workers in their respective communities in behalf of Liberty bonds, war savings stamps and Red Cross work. Thousands of their boys were either at the front or ready to go to the front in behalf of the great cause of liberty and democracy, and it would seem a miscarriage of justice that their parents should be reduced to a state of bankruptcy after many of these boys have made the supreme sacrifice."

Invited to Enter Industry  
"For fifty years," said Mr. Taft, "California has been growing wine grapes on land which for the most part is totally useless for any other form of cultivation."

After stating that national prohibition was making California dry against its will, as demonstrated by a wet majority of 5,000 last November, Mr. Taft continued: "The men who have put their money and labor in the vineyards of California are men, in large measure, who have done so upon special invitation. That invitation was extended by official bodies not only representing California, but the nation as a whole."

## Harvard Union To Be Made Everybody's Club

University to Try an Experiment in "Emphasized Democracy"

Harvard Union, the big student club founded nineteen years ago by Major Henry L. Higginson, of Boston, will become next Monday the centre of an experiment in "emphasized democracy" by Harvard University authorities. On that day the university takes entire charge of the institution, and according to a statement issued yesterday by the Harvard Endowment Committee here, the fees will be lowered in spite of a probable deficit during the first year or two. Regarding plans for conducting the institution, David M. Little, Jr., the new graduate manager, said: "The college is going to make the union a club for the entire university—not a 40 per cent organization, but one to which every Harvard man may belong. The methods employed formerly were not adequate to the growing needs of Harvard. The union was used, but it was not as generally popular as it can be made."

"This year the union will be opened along the lines of a large city club. There will be no initiation fee, and the dues will be only \$3 a year instead of \$10. The dining room will be run for members exactly as would be the dining room of any large city club."

"There will be a board of governors chosen from the older members of the upper classes in college and the graduate schools, a house committee and an entertainment committee. Lectures, lectures, smokers, mass meetings, dances and dinners will form part of the union's regular life."

## Grand Duke May Claim Right to Russian Throne

Michael, Late Czar's Brother,  
Escaped the Reds; Reported  
With Kolchak

PARIS, Sept. 14.—Grand Duke Michael Alexandrovich, brother of the late Russian Emperor, who made his escape from Perm, where he was imprisoned by the Bolsheviks, has reached Admiral Kolchak's headquarters, according to "Effluvia." He is known to only a few of Kolchak's officers, the paper adds, and is preparing to act in the role of pretender to the imperial throne.

Grand Duke Michael was appointed Regent of Russia when the Romanoff dynasty was overthrown. He was exiled by the Bolsheviks, but later was reported to have escaped and placed himself at the head of a new Siberian government. It was also reported that he had been proclaimed Emperor of Russia and was marching against Moscow with a force of Czech-Slovaks.

## Mexican Coast District Is Closed to Asiatics

CALEXICO, Cal., Sept. 14.—The northern district of Lower California was closed to further immigration by Japanese, Chinese and other Asiatics in an order issued today by Governor Esteban Cantu. The order is to be effective until the Mexican Federal Congress takes action on the question of immigration.

## Parker to Present Lincoln Statue to Manchester To-day

Elaborate Preparation Made  
for Event by the British  
City; Ambassador Davis  
to Assist in Ceremonies

MANCHESTER, England, Sept. 14 (By The Associated Press).—Elaborate preparations have been made for the presentation to the city of George Grey Barnard's statue of Lincoln tomorrow by Judge Alton B. Parker, of New York, in behalf of the Sulgrave Institution. British and American flags are flying from all the public buildings. Unusual interest is manifested and a large crowd is expected to witness the ceremony.

Judge Parker, accompanied by the American Ambassador and Mrs. John W. Davis, Sir Sidney Lee, Colonel Chapman-Huston, of the British army, and Countess Sandwith, whose father, William Sturges, of New York, was a close friend of Lincoln's, arrived from London to-night. The Lord Mayor and Lady Mayoress and City Councillors met the party.

After visiting numerous places of interest, including the Manchester College of Technology and Manchester University, the party will be the guests at the Town Hall of the Lord Mayor. Ambassador Davis will respond to the toast "British-American friendship the foundation of the world's peace."

Judge Parker also will speak, and a procession will then be formed which will proceed through the city to Platt Field Park, where, after Judge Parker's address, the Lord Mayor will unveil the statue and address those assembled. A vote of thanks will be moved by a representative of the Anglo-American Society, seconded by a representative of the Mayflower tercentenary committee.

Returning to the Town Hall, a meeting of the Anglo-American Society will take place, with addresses by Ambassador Davis, Judge Parker, Lord Mayor-elect Fox and others. In the evening the Lord Mayor will give a reception and dinner to the visitors. On Tuesday the party will visit the ship canal, and later lunch with the Chamber of Commerce.

## Brooklyn Man Shoots Two in Family Quarrel

Brother and Sister-in-Law Are  
Wounded While Assault's  
Children Look On

Enrico Conforti, a widower, of 1027 East New York Avenue, Brooklyn, was arrested last night accused of shooting his brother, Andrew, and his brother's wife, Angelina. The former was shot in the abdomen and the latter in the thigh. Both are in a hospital. The shooting occurred in the presence of three of Enrico Conforti's children, the eldest ten years old.

His brother and his wife, who live at 277 Van Brunt Street, Brooklyn, were at a party in a neighbor's home at 544 Van Brunt Street when Enrico and his children entered. According to Andrew and his wife and Enrico's children, Enrico demanded part of the government insurance money that Andrew has been receiving since their brother was killed in France. Andrew refused and after a short dispute Enrico is said to have drawn a revolver and shot him, firing another bullet at Andrew's wife, who sought to aid her husband.

Enrico, declared, according to the police, that he fired in anger because the reputation of his dead wife was being assailed.

## Coal Famine in Europe Certain, Says Goodyear

Member of American Commission  
Declares Want of Roll-  
ing Stock Will Cause It

PARIS, Sept. 14.—Even if all the central European miners were to work on two shifts of nine hours daily, a coal famine in Europe this winter could not be prevented, according to Colonel C. Goodyear, of Buffalo, a member of the Inter-Allied Commission which intervened between the Poles and Germans in Silesia to quiet the warfare caused by the alleged oppression of the miners by the Germans. Colonel Goodyear will sail for the United States soon. The other American officers on the commission are still in Silesia.

Colonel Goodyear says that all except six of the sixty-five of the coal miners in Upper Silesia are now working on two shifts of seven and one-half hours each daily. His fear of a coal famine in Europe is based on the statement that 27 per cent of the railroad cars in Central Europe are in bad order and the disorganized transportation makes the average time between the Poles and the Germans and one-half days for cars in the United States.

## Poles Returning Home

WARSAW, Aug. 24 (By Mail).—The refugee movement is on again in Poland and Lithuania. Every day the roads from Poland to Russia are dotted with groups of weary and foot-sore people, plodding slowly westward toward their old homes in Poland and Lithuania.

They were driven from their homes during the fighting back and forth across Poland and ever since they have been wandering about in the interior of Russia. Some Polish officials say they number hundreds of thousands. All are old men and women and children.

To take care of some of these people at least the American Red Cross has established refugee centres and orphanages near the border. In an effort to prevent the infiltration of more epidemics into Poland the Red Cross has taken up the task of giving them medical treatment, clothing, food and disinfection.

## AN "ECONOMY" SALE

WITH the object of assisting in the movement to reduce living expenses, we have set aside a large portion of our immense stocks and will offer them today at prices decidedly lower than those now prevailing for goods of similar quality. We are doing this deliberately, notwithstanding many indications that increasing cost of production will make it impossible to replace the goods at these figures.

Value is not measured by what you pay, but by what you get for your money. The articles offered are of "SLOANE" standard qualities; clean, perfect and more serviceable than the LOW PRICES would indicate.

Only a few examples can be submitted here. The selections must be seen to be appreciated.
